

Simple X and O Game

README

Description

A simple X and O (Tic-Tac-Toe) game written in Python for two players.

Features

- Two-player gameplay
- 3×3 board
- Automatic X/O turns
- Win and draw detection
- Invalid-input handling
- Prevents occupied positions

Requirements

Python 3.x. No external libraries are required.

How to Run

Save the program as **tic_tac_toe.py** and run:

```
python tic_tac_toe.py
```

How to Play

Choose a position from 1 to 9:

```
1 | 2 | 3
---+---+---
4 | 5 | 6
---+---+---
7 | 8 | 9
```

Player X starts. Players take turns. Three matching symbols in a row, column, or diagonal wins.

Input Validation

The program checks non-numeric input, positions outside 1–9, and already occupied positions.

Project Structure

```
Simple-X-and-O-Game/
■■■ tic_tac_toe.py
■■■ README.md
```

Concepts Used

Lists, functions, conditions, loops, tuples, exception handling, user input, Boolean values, and game logic.
